Wholesalers of HVAC Controls and Solutions since 1945

Everything you can learn about *Niagara*^{AX} In six hours.

We will use the Johnson Controls appliance to show you how to navigate and service existing Niagra stations. These supervisory controls (based on Tridium's Niagara framework) allow remote visibility to monitor and control mechanical systems. This class will focus on helping you understand and navigate the user interface. This class is geared for Mechanical Contractors who have seen Tridium supervisory controls, but need to learn how to understand them better.

\$125.00 total

Aug 17, 2011 3:00 – 6:00 pm
