Wholesalers of HVAC Controls and Solutions since 1945

Belimo Training - July 20, 2010 – Brighton, MA

Valve Retrofits & Sizing

Join us for an all day class:

Sizing and selecting water control valves for commercial HVAC applications:

Participants will learn the formulas for calculating flow coefficients used to size valves, characteristics and limitations of zone, ball, globe, characterized control, high temperature characterized control, pressure independent characterized control and butterfly valves. A step by step guide to sizing, selecting and checking valves will be provided.

Retrofit solutions:

Learn to replace failed actuators with Belimo on existing globe and butterfly valves. Class will cover NV actuators, UNV retrofit kits and UGLK valve linkages. Participants will use calipers and thread gauges to take measurements on sample globe valves and fill out the forms to order adaptors for custom Globe Valve Retrofit Solutions.

Please reserve your \$50 seat by emailing us training@interstatecontrols.com
