Gas Detection in Commercial Kitchens

6/16/09 3:00 – 4:30pm class held at our office- 30 Vineland St. Brighton, MA

New regulations on gas fired commercial ovens have many contractors, owners, and inspectors confused. This complicates the already fuzzy line of where the fire protection contractor stops and where the mechanical contractor begins. We have a simple system that meets the code and satisfies inspectors. You are invited to an informal explanation of how we are attempting to simplify these jobs.
